The E & W lines between these sections have not been surveyed. But from the survey of the line between Sect. 7 & 18, and the South boundary of Sect. 31, and the meanders of the river up to the Township line from the corner of 7 & 18, I have made an estimate of the contents of the western quarter. The contents indicated (in red ink) would not probably vary materially from the true contents; and if any of them should be sold, the Surveyor General will cause a survey of the unfinished line, to be made, & the true contents given.
